

**60th Anniversary Symposium
Institute for Genetics Cologne**

Friday, June 17th 2022

Programme

- 13:30 Opening

 Axel Freimuth, Rector of the University of Cologne

 Chair: Jonathan Howard
- 13:40-14:00 Walter Doerfler, Erlangen
*Max Delbrück's Founding of the Institute for Genetics in Cologne was the
Milestone for Molecular Genetics in Germany*
- 14:00-14:35 Andreas Radbruch, Berlin
Immunological Memory
- 14:35-15:10 Maria Ermolaeva, Jena
Stress and Metabolic Effects of Genotoxic Stimuli
- 15:10-15:40 Break

 Chair: Mirka Uhlirova
- 15:40-16:15 Anna-Lena Steckelberg, New York
Viral Master Manipulators of Cellular Gene Expression
- 16:15-16:50 Filipe Cabreiro, Cologne
C. elegans as a Biosensor of Microbe-Drug-Host Interactions
- 16:50-17:10 Break

 Chair: Maria Leptin
- 17:10-17:45 Ana García-Sáez, Cologne
Illuminating Mitochondrial Permeabilization in Apoptosis
- 17:45-18:20 Diethard Tautz, Plön
The Evolution of New Genes - Musings on my Longest Running Project
- 18:20 Closing Remarks
